Dear Mr. Galetka:

In July 2009, this office received a Notice of Intent from you to conduct Exploration and Bulk Sampling for alabaster on the Hardpickin #6 claim. This notice was processed and given the serial number of UTU-083058 by the Bureau of Land Management (BLM) and E/025/0016 by the Utah Division of Oil, Gas, and Mining (UDOGM). The bond for this project was set at \$11,200 and was approved.

On June 24, 2013, this office received a copy of a Plan of Operations for the Hardpickin #6 Project. BLM has assigned the serial number UTU-090390 for this Plan and UDOGM has serialized the project as E/025/0033. Because the surface disturbance for your Plan of Operations includes all disturbances created by the Exploration and Bulk Sampling, the bond for the Exploration project is being transferred to the new Plan of Operations.

**The Hardpickin #6 Notice UTU-083058 is now closed.**

Please reference the Plan of Operations number UTU-090390 in all future correspondence with this office.

If you have any questions, feel free to contact James Holland at the Kanab Field Office at 435.644.1277.

Sincerely,

Harry Barber  
Kanab Field Office Manager
